

## We Cordially Invite you to Join us as an Editor of Organic Chemistry an Indian Journal

**John Jeff Hardy\***

Editorial office, Trade Science, UK

\***Corresponding author:** John Jeff Hardy, Editorial office, Trade Science Inc., UK, E-mail: hardyi\_a@hotmail.com

**Received:** January 18, 2021; **Accepted:** February 17, 2021; **Published:** February 24, 2021

### Announcement

First and foremost, we'd like to express our heartfelt gratitude to the Open Access Journal's editors. Organic chemistry is the study of organic compounds. An Indian journal has partnered with more than 50 eminent Editors to publish high-quality papers in the field of organic chemistry. We use an Editorial Tracking System, which is an online manuscript submission, analysis, and tracking system, to ensure consistency in the peer-review process. Review processing is handled by members of the Journal's editorial board or outside experts, each citable manuscript must be approved by at least two independent reviewers before being accepted by the publisher. Authors will send manuscripts and monitor their progress through the method, to see them published. We are incredibly grateful for the invaluable work of our board individuals in contributing both to our comprehensive companion audit framework and to the critical advancement of the Journal we distribute, as you are all aware. Global Experts in similar logical distributions make up the Journal community. To ensure distribution consistency, all submitted papers go through several stages. The compositions are subjected to the regular companion audit. The infinite supply of paper acts as a starting point for screening. In any case, two free refs are sent out with the fitting articles. The Editor-in-Chief, who is responsible for reaching a final decision, considers the arbitrators' comments. Giving our respected creators timely and constructive feedback remains a top priority so that their work can be made available to the rest of the world on time. COVID-19 outbreak has caused massive disturbances globally leading to challenges for everyone. Several numbers of researchers/technicians are still facing challenges like laboratory closures and arrangement of online teaching and also simultaneously dealing with the effects of this pandemic situation on their day-to-day lives. Some of the editors, reviewers, and authors of different journals are also physicians who are battling the pandemic. Therefore, delays during this pandemic period are inevitable, and therefore we would like to convey our thanks. Significantly, our Editors and Editorial Advisory Board ought to address the themes we distribute as well as reflect nations from where our entries come.

Moreover, our journal has supported researchers in their early-career. Researchers/Scientists/Authors are invited to share their CV and research interest with us and become a part of the Editorial Board Member, where they can work closely along with the Editors and Reviewers to provide the same high quality and quick review process. If you are interested in joining our Editorial Board, Please send us your updated CV, Research Interest, Biography, Recent Photograph (JPG) Email to [organicchemistry@tradescience.org](mailto:organicchemistry@tradescience.org). The editors anticipate working with our recently added individuals throughout the next few years. I invite all our board individuals and expand a warm greeting indeed to the individuals who have chosen to join our recognized rundown of researchers.
